"More than a decade since it was first introduced, the legendary Taurus Judge® still rules. Today, it's available in more than a dozen models. Capable of chambering both 45 Colt and 410 shotshell, it's the original five-shot game changer."

Growing in popularity due to its versatility in ammunition while maintaining good handling and accuracy, the Judge is a favorite for home defense and self-protection as well as both target and recreational shooting. Its compact size and 410 shotshell capacity are also gaining popularity for small game hunting and pest-control. Due to its popularity, a variety of models, accessories, grips and sights are available.

Thoughts on modifying the Judge to fire .45 ACP ammo

There's a lot of talk amongst fans that you can modify a Taurus Judge to fire .45 ACP ammunition. There's lots of videos online explaining and even showing you how to do this. However, in the words of Detective Bill Schoen, *"You CAN modify it to fire .45 ACP, but that's so ill-advised, I don't even know how to verbalize it."* Coincidentally, all the instruction videos we've seen come front-loaded with disclaimers and assume NO liability, admitting that modifying the Judge in this way is NOT recommended and should only be performed by experts.

However, characters with the **Munitions Expert** skill can attempt to modify a Judge without penalty, while those who do not suffer a -30% when using other Mechanical related skill (even *Weapons Engineer* as its related to military weaponry). If the roll is failed, the barrel is ruined and must be replaced. Every Shot fired from a ruined barrel has a 01-25% chance of causing the gun to explode in your hands! Damage of exploding handgun is ammunition being used +3 (due to shrapnel), more than enough damage to remove the fingers, or even the entire hand that was holding it.

Bonus Model: Public Defender

"Check out the revolutionary new Public Defender Polymer. This scaled-down model of everyone's favorite combo gun, the Taurus Judge, still gives you the ability to fire your choice of ammunition—now in a size that fits in most pockets—also in a lighter, polymer body frame with new updates for improved handling and accuracy. Truly amazing! Just like its big brother, this little gun delivers amazing versatility and devastating firepower for self-protection."

Note: This model adds +5% to Concealment rolls.
